

Members of the Washington State Legislature:

Like air to breathe and food to eat, safe shelter is a basic human need. Recent polling shows that 92% of Washington voters say homelessness and lack of affordable housing are critical issues that the Washington State government should address. With a strong economy and nearly \$1 billion left in federal COVID funding, we have the resources to address the affordable housing and homelessness crisis. The undersigned organizations and individuals urge you to invest in the housing and other resources that our communities need to ensure that everyone can live in a safe, healthy, affordable home.

- Please invest \$500 million to build safe, affordable homes across the state to prevent and reduce homelessness. The Governor's budget invests \$434.7 million in capital investments for housing and homelessness, please bring that to \$500 million to provide as many people as possible with safe, healthy, and affordable homes.
- Please support the Governor's permanent increase to the Aged, Blind and Disabled cash grant for people with disabilities from \$197 to \$417 per month. People with disabilities across the state are unable to meet their basic needs on \$197. The current payment standard is approximately 18.5% of the Federal Poverty Level, which is why approximately 43% of ABD recipients were homeless in 2020. Increasing the grant will help people meet their basic needs.
- Please add \$78 million to address the critical workforce shortages and improve workforce sustainability of our frontline homeless service providers. This will assist Permanent Supportive Housing and homelessness service providers to support their workforce and fill critical vacancies. Our state's ability to prevent and end homelessness rests on the shoulders of our frontline workers and we need to support them.
- Please support Governor Inslee's investment of \$1.3 million to address a shortfall for the Tenants' Right to Counsel program. Renters need access to services and representation and this \$1.3 million will fill a gap not anticipated in last year's fiscal note.
- Please add \$2 million to provide pre-eviction prevention civil legal aid. Pre-eviction civil legal aid is the first line of defense against eviction. It prevents cases from entering the court process and empowers tenants to utilize their rights. Informed tenants can enter dispute resolution with a clear understanding of their rights and responsibilities. This results in better outcomes for tenants by improving housing stability. \$2 million dollars from the State Operating Budget will fund local providers and will keep many tenants from entering the court system.
- Please support Governor Inslee's investment of \$4.5 million for foreclosure prevention. With the end of state and federal foreclosure moratoria and forbearance programs, Washington homeowners impacted by the pandemic need immediate help to stay in their homes. As the pandemic continues to evolve and impact the economy, homeowners will be feeling the ramifications for several years to come.
- Please provide state funding and expenditure authority for the State Health Care Authority to continue the Foundational Community Supports and the broader Medicaid Transformation Project for another 5 years. This will allow Medicaid to continue to be used to pay for homelessness services related to Permanent Supportive Housing.

These investments will provide immediate support to people who need it the most, maximize building new, safe, and affordable homes, and invest in frontline workers. It will also provide necessary resources to increase housing stability. Supporting these priorities will show that Washington is truly committed to ensuring that everyone has a safe, healthy place to call home.
